PROGRAMME REPORT

Date: 11/07/2019

Name of the Programme : Nano Bio translational Research.

Date : 01/07/2019 to 06/07/2019

Details of resource person

1. Name : Dr.V.Sai Kishore
2. Designation : Professor
3. Name of the organization : Bapatla College of Pharmacy, Bapatla.
4. Phone No : 9440938249
5. Mail Id : saikishorebcop@gmail.com

Objective: Narasaraopeta Institute of Pharmaceutical Sciences had successfully organized FDP program on Nano Biotranslational Research for all the faculty members. The main objective of this program is to summarise the most recent developments in the field of applied nanomaterials, in particular their application in biology and medicine.

Topic covered: Nano particles and Nano materials, Applications of Nano Biotechnology, Applications in medicine, Current status of Nano research.

Programme outcome: An open feedback was collected from all the faculty and they expressed that the program helped them to improve their knowledge in health care.

1. How multiple types of nanotechnologies can be applied to diagnose and treat human diseases, including different types of cancers.
2. Special physicochemical and biological properties of nanostructures and their applications.

Principal Dr. J. N. Suresh Kumar and the management expressed their gratitude to for her excellent delivery.

About the College:

Narasaraopeta Institute of Pharmaceutical Sciences (NIPS), established in 2007, aims to provide quality pharmacy education with human values to rural aspirants to meet the requirements of pharmaceutical industry and health needs of the society, and to achieve the excellence in pharmaceutical research. The College has introduced the course of Pharm.D, for the first time under the JNTUK Kakinada. The college has well experienced teaching staff and 16 well equipped laboratories. The college is furnished with well developed infrastructure and well-defined instrumentation facilities. NIPS is an ISO 9001:2015 certified institution and approved by Pharmacy Council of India (PCI) & All Indian Council for Technical Education (AICTE), New Delhi, Government of Andhra Pradesh and affiliated to JNTUK, Kakinada.

About FDP:

Translational biomedicine is a rapidly growing field within biomedical and public health research that seeks to improve the health of individuals and the community by turning discoveries into diagnostic tools, medicines, procedures, policies and education.

About FDP:

The benefits of a data-driven approach to business are well established but not set in stone. The relentless march of technological progress means the boundaries of what is possible are constantly being redrawn, spawning new behaviours, trends and buzzwords. Data science gave rise to AI as we know it in business today – the ability for machines to "learn" to become continuously better at making predictions based on the data they are given. Today, the most exciting trends in data revolve around these cognitive decision-making capabilities.

Objective:

The object of the Skill Oriented value-added Certification program on Pharmacovigilance is valued addition & transfer the student's academic knowledge to skilled professional. Clinical data analytics course is desired to validate the results of scientific experiments. Course is designed to develop and manage databases for healthcare organizations and commonly work in a clinical setting.

The main objective behind including Clinical Data Analytics is to create a broad scope on industrial work and application of softwares in data interpretation with results.

Learning Outcomes:

1. To review, extract, compile and analyse patient data.
2. To validate the result and draw a conclusion from clinical trials.
3. To improve the health of patients.
4. To apply the knowledge of statistics in results and validate them.

REPORT

Name of the program:

"CLINICAL DATA ANALYTICS"

Duration: 36 hours **Venue: Seminar Hall**

Dates: 02nd Aug , 2019 to 30th Sep, 2019..

Resource person details:

- **Mr Sudhakar sir,**
  Associate Professor, Malla Reddy College of Pharmacy.

No. of students enrolled: 30 **No. of students certified: 30**

Objective:

The object of the Skill Oriented value added Certification program on Pharmacovigilance is valued addition & transfer the student's academic knowledge to skilled professional. Clinical data analytics course is desired to validate the results of scientific experiments. Course is designed to develop and manage databases for healthcare organizations and commonly work in a clinical setting.

The main objective behind including Clinical Data Analytics is to create a broad scope on industrial work and application of softwares in data interpretation with results.

Learning Outcomes:

1. To review, extract , compile and analyze patient data.
2. To validate the result and draw a conclusion from clinical trials.
3. To improve the health of patients.
4. To apply the knowledge of statistics in results and validate them.

The performance of the students gained handling expertise to great extent as they are now more competent.

About the College:

Narasaraopeta Institute of Pharmaceutical Sciences (NIPS), established in 2007, aims to provide quality pharmacy education with human values to rural aspirants to meet the requirements of pharmaceutical industry and health needs of the society, and to achieve the excellence in pharmaceutical research. The College has introduced the course of Pharm.D, for the first time under the JNTUK Kakinada. The college has well experienced teaching staff and 16 well equipped laboratories. The college is furnished with well developed infrastructure and well-defined instrumentation facilities. NIPS is an ISO 9001:2015 certified institution and approved by Pharmacy Council of India (PCI) & All Indian Council for Technical Education (AICTE), New Delhi, Government of Andhra Pradesh and affiliated to JNTUK, Kakinada.

Objective:

1. To get awareness on inventive process of finding new medications based on the knowledge of a biological target.
2. To motivate students regarding the importance of research and drug invention
3. To create awareness on important and advanced tools placing role in drug design.

Learning Outcomes:

1. Strategies involved in drug discovery.
2. Process and approvals necessary for drug discovery.
3. Use of CAD in Drug Discovery.

About the College:

Narasaraopeta Institute of Pharmaceutical Sciences (NIPS), established in 2007, aims to provide quality pharmacy education with human values to rural aspirants to meet the requirements of pharmaceutical industry and health needs of the society, and to achieve the excellence in pharmaceutical research. The College has introduced the course of Pharm.D, for the first time under the JNTUK Kakinada. The college has well experienced teaching staff and 16 well equipped laboratories. The college is furnished with well developed infrastructure and well-defined instrumentation facilities. NIPS is an ISO 9001:2015 certified institution and approved by Pharmacy Council of India (PCI) & All Indian Council for Technical Education (AICTE), New Delhi, Government of Andhra Pradesh and affiliated to JNTUK, Kakinada.

Objective:

1. To gain knowledge on good manufacturing practises to be followed in Industries.
2. Standard parameters to be followed in implementation of Good Manufacturing Practises.
3. Practical implementation skills on GMPs in laboratories.

Learning Outcomes:

1. 1. Need for GMP in laboratory.
2. Standards to be followed in GMP at different levels.
3. Differentiating the practical implementation followed in industries, academics, hospitals and so on ....

REPORT

Name of the program: "GOOD PRACTICES FOR QUALITY CONTROL AND QUALITY ASSURANCE".

Tenure: 05 October 2019 to 12 November 2019.

Course Faculty cum Resource person details:

Dr. Abdul Rahaman Professor and Principal at Nirmala pharmacy college.

No. of students enrolled: 19 **No. of students certified: 19**

Narasaraopeta Institute of Pharmaceutical Sciences, Narasaraopet organised a certificate program on "GOOD PRACTICES FOR QUALITY CONTROL AND QUALITY ASSURANCE" for students by **Dr. Abdul Rahaman** Professor and Principal at Nirmala pharmacy college, from **05 October 2019 to 06 November 2019**. This program covered the given below objectives and learning outcomes.

Objective:

1. To produce products conforming to the predetermined specifications
2. To produce products of consistent quality
3. To minimize contamination
4. To eliminate error.

Duration: 35 Hours

Module: Seminar Classes

Dates: **05 october 2019 to 06 November 2019**

Learning Outcomes:

1. Production and control operations are clearly specified in a written form and GMP requirements are adopted

2. Arrangements are made for Manufacture, supply and use of the correct starting and packaging materials

3. All necessary controls on starting materials, intermediate products, and bulk products and other in-process controls, calibrations and validations are carried out.
