

About the College:

Narasaraopeta Institute of Pharmaceutical Sciences (NIPS), established in 2007, aims to provide quality pharmacy education with human values to rural aspirants to meet the requirements of pharmaceutical industry and health needs of the society, and to achieve the excellence in pharmaceutical research. The College has introduced the course of Pharm.D, for the first time under the JNTUK Kakinada. The college has well experienced teaching staff and 16 well equipped laboratories. The college is furnished with well developed infrastructure and well-defined instrumentation facilities. NIPS is an ISO 9001:2015 certified institution and approved by Pharmacy Council of India (PCI) & All Indian Council for Technical Education (AICTE), New Delhi, Government of Andhra Pradesh and affiliated to JNTUK, Kakinada.

Objective:

The object of the Skill Oriented value added Certification program on Good Professional Practices at Pharmaceutical Manufacturing (GP3M Certification Program) is valued addition & transfer the student's academic knowledge to skilled professional through various easy learning processes, modules and symposiums, operating manuals, lively advanced machine operations, standard operating procedures (SOP's), operating protocols etc. on par with international pharmaceutical regulatory requirements.

Learning Outcomes:

1. Development of industry skills on Manufacturing Industries,
2. Development of industry skills on Process Flow of Pharmaceutical Manufacturing.
3. Applications of Manufacturing Equipment, Installation, operational procedures & Qualification process.

Objective:

Good Manufacturing practices is a set of regulations codes and guidelines for the manufacturing and testing of active pharmaceutical ingredients, diagnostics, foods and pharmaceutical products.

Learning Outcomes:

1. List some of the unique requirements in CGMP environment designed to formulate, filter, and fill parental drugs and combination devices
2. Discuss how CGMP regulatory requirements & aseptic processing help protect sterile products and the patients who use them
3. Identify forms that parental formulations may take
4. Describe some different filling mechanisms and some of the pros and cons of each
5. Compare filter testing by bubble point and diffusive flow.

About the College:

Narasaraopeta Institute of Pharmaceutical Sciences (NIPS), established in 2007, aims to provide quality pharmacy education with human values to rural aspirants to meet the requirements of pharmaceutical industry and health needs of the society, and to achieve the excellence in pharmaceutical research. The College has introduced the course of Pharm.D, for the first time under the JNTUK Kakinada. The college has well experienced teaching staff and 16 well equipped laboratories. The college is furnished with well developed infrastructure and well-defined instrumentation facilities. NIPS is an ISO 9001:2015 certified institution and approved by Pharmacy Council of India (PCI) & All Indian Council for Technical Education (AICTE), New Delhi, Government of Andhra Pradesh and affiliated to JNTUK, Kakinada.

Objective:

The object of the Skill Oriented value-added Certification program on Pharmacovigilance is valued addition & transfer the student's academic knowledge to skilled professional. Pharmacovigilance is defined as "the science and activities relating to the detection, assessment, understanding and prevention of adverse effects or any other medicine/vaccine related problem".

The main objective behind including Pharmacovigilance is in order to impart the clinical importance of drugs and its side effects in patient monitoring.

Learning Outcomes:

1. To understand and analyse safe, rational and effective use of medicines.
2. To improve patient utility by taking care and safety use on medicines
3. To improve the health of patients.
4. To educate in Pharmacovigilance and to improve its usage to public by effective communication.

Patrons:
