

Intellectual Property Rights Cell (IPR)

Constituted on 06-06-2016

INTELLECTUAL PROPERTY RIGHTS (IPR) CELL

NIPS took the initiative to create an intellectual property rights policy (IPR) by setting up an IPR cell to function with the prime focus of enabling students, researchers and professors to identify, generate and protect their intellectual property through filing procedures for rights like patents, copyrights, trademarks, designs, etc. Along with this, IP Cell will ensure seamless and ceaseless knowledge transfer amongst students and faculties, alike.

INTRODUCTION:

In today's century 'Gen-Y' is considered the key person for laying down a future roadmap for creating, nurturing, building and strengthening creativity and innovation. In this regard, student-focused policies ensure that a change is initiated and supported by students, especially in light of envisioning a young and healthy creative, innovative and healthy start-up ecosystem. Moreover, the R&D facilities, infrastructure and other amenities provided by the academic institution offer a platform for students to build and sustain this environment.

Recognizing the importance of Intellectual Property Rights (IPRs) and inculcating respect for the same, amongst innovators, researchers, industries, etc. is an important mandate of the National IPR Policy, 2016. The foundation of this has to be laid at the grass-root level by initiating programs for the youth; with specific target being the academic institution. In order to engage students/ personnel and motivate them to work in the field of IPRs, a first step would be through the creation of "IP cells" in the academic institution. To ensure the effective applicability of these guidelines, the IP cells so formed, have been proposed as the common network for all IP Cells to be established pan India in the academic institution.

VISION:

A self-sustainable ecosystem within the institution where Intellectual Property stimulates creativity and innovation for the benefit of all.

MISSION:

To create a nationwide reach and network of IP Cells which will create awareness about IPRs, encourage students/ faculties/ personnel to file for IPRs and also help in commercialization within the framework of the IPR policy.

OBJECTIVES:

1. IPR Cell will be responsible for conducting the following:
 - IPR Awareness Programs – Conducting IPR awareness programs for students, faculty, researchers, officials, etc.

- Self-Training Workshops/ Advanced level awareness programs – Conduct advanced and training of trainers (TOTs) level IPR awareness programs for students, faculty, researchers, officials, etc.
2. IPR Cell shall provide an environment for academic and R&D excellence and conduct dedicated programs on IPR for the undergraduate and postgraduate students as well as organise regular IPR counselling programme for research scholars.
 3. IPR Cell shall expose students, faculty, researchers, officials, etc. to the prevalent IP law practices and provide them with an opportunity to learn and use legal skills under the supervision of IP practitioners and experts.
 4. IP Cell shall provide a platform to diagnose innovation and research on contemporary issues of national and international relevance leading to creation of IPR.
 5. IP Cell shall facilitate, encourage, promote and establish collaborative frameworks for industry – academic institution partnerships at national and international scale to initiate research and development of commercial value.
 6. Another important task of IP Cell would be to create an IPR Policy for the academic institution, including the Royalty's Distribution Arrangement. Some models and drafts of IPR policies of several universities may be accessed from the WIPO website for reference. This database also includes IPR policies of various other Higher Educational Institutions (HEIs).
 7. IP Cell may tie up with the existing innovation and creativity ecosystem in the academic institution, if already existing (such as Research Ethics Committees, Incubation Centres, Entrepreneurship Clubs, etc.). If not already established, it shall be responsible for setting up a new innovation ecosystem with hand-holding support and assistance from relevant authorities.
 8. IP Cell will facilitate the recording, monitoring and maintenance of the IP portfolio of the academic institution may choose an outside counsel/ IP firm for managing its IP portfolio.
 9. IP Cell will enhance the reputation of the academic institution as an academic research institution and a member of society as well as the reputation of the researchers through bringing the research results to public use and benefit. It will ensure that a culture is built that enhances recognition and respect for IP amongst students, faculty, researchers, officials, etc.
 10. IP Cell will set out the academic institution procedures on the identification, ownership, protection and commercialization of IP.

11. IP Cell on regular basis will encourage researchers to identify solutions for problems faced by the industries and tailor research projects around the same.
12. In case of IP Filings:
 - Students pursuing Post-Graduate and above courses (M. Pharm and Ph.D. students) shall be encouraged to undertake patent search before publishing any research paper and subsequently file for a provisional patent for novel inventions.
13. For filing any IP, IP Cell may avail necessary help from the nearest PIC/ IPFC or TISC present across the country. IP Cell may seek assistance from these entities for legal certainty in research activities and technology-based relationships with third parties.
14. IP Cell shall share half yearly reports, which shall provide updates regarding the work done and targets/ milestones achieved, with CIPAM-DPIIT and concerned Department(s) in the State Government.
15. IP Cell may ensure, in case of disputes, efforts are made to address the concerns by developing and instituting as well as adopting an alternative dispute mechanism at the academic institution level.
16. IP Cell shall be governed by appropriate laws of the State (where the academic institution is located) and India.

ORGANIZATION STRUCTURE:

The following positions of responsibility are suggestive in nature. This structure may be followed to establish a creative, innovative and IP friendly ecosystem as well as devise monitoring mechanisms in academic institution.

Lead Coordinator: This position may be allotted to 1 senior faculty who shall be responsible for making sure that all the mandates are followed and the roles and responsibilities for effective functioning are judiciously followed. The Lead Coordinator shall also be responsible for using his or her network to reach out to industries for collaboration with the universities. Compulsory: Must have basic knowledge on IPRs.

Deputy/ Assistant Coordinator: This position may be offered to 2 junior faculties who shall be responsible for day-to-day operations of the IP Cell and will coordinate with the students. The responsibilities of Deputy Coordinator and Lead Coordinator will more or less be the same.

Student Coordinator(s): One or more 1st and 2nd year students who have interest in the field of IPRs may be appointed as student coordinators. They will work under the guidance of Lead Coordinator/ Deputy Coordinator/ Assistant Coordinator towards achieving the goals of the IP Cell.

Campus Ambassador/ IP Ambassador: 3rd/ final year students of the academic institution with experience and zeal in the field of IPRs may be enrolled as Campus Ambassadors/ IP Ambassadors who will work with the Student, Deputy and Lead Coordinators in nurturing the ecosystem of innovation and creativity in the academic institution.

VERTICALS:

The academic institution may choose to have one or more of the following verticals in the IP Cell:

- i) Awareness/ Public Outreach: This vertical will focus on conducting intra academic institution - Workshops/ Seminars/ Conferences on IPR, in-house workshops, academic institution – Industry Linkages, Student Activity Forum.
- ii) Education: This vertical will focus on facilitating credit courses/ content material, research projects, advanced/ TOT programs.
- iii) Operations: This vertical will focus on creation of database for IP filings in the academic institution, technology transfer, IP management and related industrial interaction thereof.
- iv) Legal Assistance: This vertical will focus on general and day to day legal assistance required for industry-academia collaborations, confidentiality agreements, forms and fees regard IP filings, in-house intellectual property, publications, et al.
- v) Administration: This vertical will focus on all matters involving payments, expenditure, resource allocation and budgetary approvals related to the general functioning and administrative as well as statutory functions of the IP Cell.
- vi) Due Diligence: This vertical will focus on all matters pertaining to possibilities of plagiarism, counterfeiting, patent infringement and other related IP issues.

MODALITIES FOR PATENT FILING:

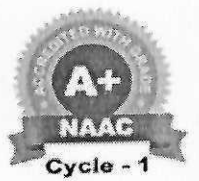

1. For students and/or staff who wish to file patents, the idea must first be disclosed to the patent officer, using a standard 'INVENTION DISCLOSURE FORM' form available from the office/server, which inventors can download.
2. Based on information disclosed, the nodal patent officer will get innovation vetted professionally at the earliest but no later than 30 days, from patent attorneys empanelled by college. In case idea is patentable, college will go ahead with the patent filing.
3. Conflicts if any shall be resolved by the principal of the college whose decision shall be final and binding on all.

INTELLECTUAL PROPERTY RIGHTS (IPR) CELL

MINUTES OF MEETING

The meeting of the Intellectual property Rights cell was held at 03:00 pm on 27-01-2024 at the principal chambers.

PROPOSED AGENDA

1. Planning for IPR event in association with the Intellectual Property Rights Cell.
2. Review of patent applications made by the faculty.
3. Details of patent field.
4. Discussions on filing new patent protocol.
5. Any other points with the permission of chairman.

MEETING OUTCOME: 1. planning for the programmes on IPR:

The committee planned to organize a one -day awareness or training program on IPR: its types in association with the intellectual property office, India under National Intellectual property Awareness Mission (NIPAM), the date to conduct this seminar was finalized.

Resource Person:

Mr P. Adinarayan Reddy

Associate professor, NIPS

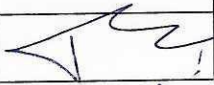

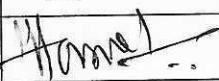

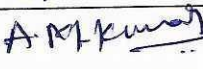

2. Review the patent application made by the faculty:

The status of the patent **applications** made by faculty members was reviewed. The members suggested that the faculty who have applied for IPR should update the status of their patent application to IPR cell regularly.

PROGRAM REPORT

NIPS IPR cell organize a guest lecture on Intellectual property rights (IPR) for I Pharm D students on 7-02-2024 February 2024. The speaker of the session was:

SPEAKER: Mr. P. Adinarayana Reddy

Associate Professor, NIPS.

The theme of IPR day is IP and the SDGs: **BUILDING OUR COMMON FUTURE WITH INNOVATION AND CREATIVITY.**

The speaker has good industrial experience in various departments of drug formulating and analysing and research-oriented experience. The session went on motivating young pharmacist towards importance of research in innovation of new drugs and creativity towards new therapeutics for uncontrolled diseases.

Differentiation on employment and entrepreneurship is also highlighted. A researcher with a patent has choices to become an entrepreneur.

The government has to support the young researcher.

The government has to motivate innovators.

OBJECTIVE: Intellectual property rights importance and advantages.

Student outcome: students get interest in research, innovation and entrepreneurship ecosystem.

Total number of students participated: 40

Total number of external students participated: 0

Total number of staff involved: 6

Office of the principal

Date: 27-12-2023

OFFICE ORDER

It is hereby informed to all the staff and students that the Intellectual Property Rights Cell (IPR) is re constituted on 27-12-2023 to create awareness on Intellectual Property and to impart training on future endeavours regarding patent filing processes. The committee members as follows.

S. NO	NAME OF THE MEMBER	DESIGNATION	DESIGNATION IN THE COMMITTEE
1	Dr .J.N. Suresh Kumar	PRINCIPAL	Chairperson
2	Mr. G. Lakshmana	Assoc.Professor	Convener
3	Dr.K.Venkata Gopaiah	Assoc.Professor	Member
3	Dr.B.Satya Prasad	Assoc.Professor	Member
4	Mr.M.Samuel	Assoc.Professor	Member
5	Dr. G. Raghavendra Kumar	Assoc.Professor	Member
6	Mr. P. Adinarayana Reddy	Assoc.professor	Member
7	Mrs. P.Seeta	Asst.Professor	Member
8	Dr.A.Manikanta kumar	Professor	Member
9	Mr.P.Lazaru	Assoc.Professor	Member

The Intellectual Property Rights Cell aim to create awareness about intellectual property for faculty members and students, to impart training on future endeavours regarding patent filing processes, and to conduct workshops, seminars, and training courses on IPR, Hence IPR CELL was constituted in college with a dedicated team of actively working faculty who have industrial and clinical exposure.

Program Report

IIC organizes a Guest lecture on “Patent Application & Start-Ups” for IV B. Pharm students and IV and V Pharm D students.

The speaker of the session is:

Speaker: **Dr. Chennupati Venkata Suresh,**
Professor,
Nalanda College of Pharmacy,
National Head, APP Analytical Chemistry Division.

The resource person with good knowledge of Research, Patents, and their application. The speaker has created a passion for research, innovation, and start-ups. The speaker highlighted the importance of research and conversion of the work into formulation and product to apply for a patent. Then the speaker briefly explained the types of patents and the commercialization of patents. The speaker also focused on start-ups and their importance. A deep insight into the advantages of the commercialization of patents is focused. As a part of this government support for patents is also highlighted.

Objective: Patents and their types, applications, commercialization, and start-ups.

Student Outcome: Awareness and importance of patents and their filing, commercialization of Patents, start-ups- its applications, advantages, and uses.

PROGRAM REPORT

NIPS IIC organizes a guest lecture on Intellectual property Rights for IV and III B.Pharm and III, IV and V Pharm D students on 3rd May 2023. The speaker of the sessions was:

Speaker: Dr. G. Vamsee Krishna, M.Pharm, Ph.D,
Professor, NRI College of Pharmacy, Agiripalli.

The speaker who is specialist in Pharmaceutical analysis had more focus on analytical forms of patenting. A brief introduction to patents with their importance has been delivered. The speaker has motivated students to startups and innovative research ideas. A deep focus on advantages of filing patents is also done. Sir has given few examples in filing patents especially in pharmaceutical research.

Objective: Awareness on Intellectual property rights.

Student Outcome: Patent filing, application of patents, advantages of patent filing, startups, Innovative startups in pharmacy and so on.

PROGRAM REPORT

NIPS IIC organizes a guest lecture on the occasion of Intellectual property Rights (IPR) Day for I Pharm D students on 24th March 2023. The speaker of the sessions was:

Speaker: Dr. Raghavendra Kumar Gunda,
Associate Professor, NIPS..

The theme of IPR Day is **Women and IP: Accelerating Innovation and Creativity.**

The speaker who is a good researcher with sound experience has focused eye on importance of research and advantages of research. The session went on motivating the young pharmacist towards importance of research in inventing new dosage forms. A brief explanation on programs taken by NIPAM are also explained.

A brief differentiation on employment and entrepreneurship is also highlighted. A researcher with a patent has choices to become an entrepreneur. Support given by government for startups and innovative ideas, motivation towards innovation are also done.

Objective: Intellectual property rights importance and advantages.

Student Outcome: research, Innovation, start up, entrepreneurship ecosystem and so on...

Date: 28-12-2022

OFFICE ORDER

It is hereby informed to all the staff and students that the Intellectual Property Rights cell (IPR) is re-constituted on 28-12-2022 to create awareness on Intellectual Property and also to impart training on future endeavours regarding patent filing processes. The committee members are as follows:

SL. No	Name of the Member	Department	Designation	Designation in the Committee
1.	Dr. J. N. Suresh Kumar	Principal	Pharmaceutics	Chairperson
2.	Dr. K. Venkata Gopaiah	Assoc. Professor	Pharmaceutics	Convener
3.	Dr. A. Swetha Prathima	Asst. Professor	Pharmacy Practice	Member
4.	Dr. A. Manikanta Kumar	Professor	Pharma. Analysis	Member
5.	Mr. M Samuel	Assoc. Professor	Pharmacognosy	Member
6.	Dr. G. Raghavendra	Assoc. Professor	Pharmaceutics	Member
7.	Mr. P.N.M. Kamal	Asst. Professor	Pharmaceutics	Member
8.	Dr. N. Mallikarjun	Professor	Pharma. Analysis	Member
9.	Mr. K. Koteswara Rao	Asst. Professor	Pharma. Chemistry	Member

The Intellectual Property Rights cell aims to create awareness about Intellectual Property for faculty members and students, to impart training on future endeavours regarding patent filing processes, and to conduct workshops, seminars, and training courses on IPR. Hence IPR cell was constituted in the college with a dedicated team of actively working faculty who have industrial and clinical exposure.

INTELLECTUAL PROPERTY RIGHTS (IPR) CELL

Minutes of Meeting

The meeting of Intellectual property rights cell held at 3:55pm on 30-06-2016 at Principal chamber.

Agenda of the meeting:

1. Briefing on IPR policy
2. To discuss the objectives for IPR policy
3. Planning about Guest lectures/ seminars on IPR
4. Selection of resource persons.

Recommendations:

1. Briefing on IPR policy:

Chairperson of the committee gave a brief view about the IPR policies, Roles and responsibilities of the each member and motivated the faculty members towards research and patenting.

2. Objectives of IP Policy:

The following objectives were formulated for the IPR policy of the institution.

- Promote scientific research and technological development
- Encourage researchers to consider the possible opportunities for exploiting an invention so as to increase the potential flow of benefits to society.
- Provide an environment that supports and encourages innovation and development.
- Protect the legitimate rights of faculty and scholars/students with regard to their intellectual and creative/novel outcomes.
- Ensure compliance with applicable national laws and regulations.
- To lay down a transparent administration system for the ownership and control of intellectual properties and sharing of revenues.

3. Planning about Guest lectures/ seminars on IPR:

Committee proposed to organize a one day seminars/ workshops on intellectual property rights for the academic year 2016-2017 and the dates were finalized to conduct seminar.

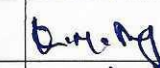

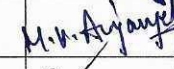

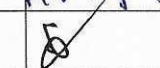

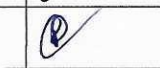

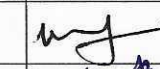

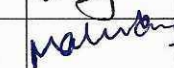

4. Selection of Resource Persons:

Members suggested the names of resource persons for IPR related lectures and the same was documented.
